

Heating and Cooling Instant Incentives – Approved Vendors

wattsmart Homes Heating and Cooling Instant Incentives

We've made it easier than ever to receive incentives on qualified residential heating and cooling (HVAC) equipment. Purchase qualifying equipment through one of our participating contractors or distributors listed below and they will verify the installation location is eligible for an instant incentive and ensure your incentive is applied to your final invoice. That's it, no additional paperwork is required from you!

All incentives for residential customers must be issued at the point of sale through a participating distributor or contractor.

Please visit wattsmart.com for more information.
